The Your Office series prepares readers to use both technical and soft skills in the real world. Hands-on technical content is woven into realistic business scenarios and focuses on using Microsoft Office® as a decision-making tool. The series features a unique running business scenario that connects all of the cases together and exposes students to using Office to solve problems relating to business areas like finance and accounting, production and operations, sales and marketing. Each chapter introduces a realistic business case for students to complete via hands-on steps that are easily identified in blue shaded boxes. Each blue box teaches a skill and comes complete with video and interactive support. Chapters are grouped into Business Units, which collectively illustrate a specific set of business concepts to achieve AACSB-related outcomes. Each Business Unit ends with a Capstone section, testing students ability to apply concepts and skills beyond a single chapter. Windows 10 is a new approach to operating systems for the more mobile world we live in. With Windows 10, apps, services, and content move across devices seamlessly, and updates will be delivered regularly. There are a variety of enhancements from Windows 10, and there are significant changes from Windows 7. To guide both new and experienced users of earlier versions, the Your Office series takes a problem-solving approach, which challenges students to use the software as a decision-making tool.
