

Sermons on several subjects, ... Vol. II. By ... John, late Lord Bishop of Ely. Volume 2 of 2

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. The Age of Enlightenment profoundly enriched religious and philosophical understanding and continues to influence present-day thinking. Works collected here include masterpieces by David Hume, Immanuel Kant, and Jean-Jacques Rousseau, as well as religious sermons and moral debates on the issues of the day, such as the slave trade. The Age of Reason saw conflict between Protestantism and Catholicism transformed into one between faith and logic -- a debate that continues in the twenty-first century. The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: Harvard University Houghton Library N023919 London : printed for T. Caldecott, 1716. [8], 375, [1] p., plate : port. ; 8

The formal history of the Church of England is traditionally dated by the Church to the Christianity developed roots in Sub-Roman Britain and later Ireland, Scotland 4.1.1 King Henry VIII of England 4.1.2 Cranmer, Parker and Hooker . Church, and appointments of bishops, notably during the reigns of Henry II and John. Fellow of the Antiquarian Society. IN TWO VOLUMES VOL.
