Mr. Minion pushed open the door of the cabin and immediately froze when he heard the shrilling sound of an infant crying. He knew, for sure, that when he left out this morning there weren't any babies living with him, and as far as he could recollect, he wasn't expecting none either. Mollys Memoir is a journey through the life and times of a woman who is raised by a Seneca Indian after she is abandoned on the porch of a log cabin in the hills of West Virginia. Growing up in the isolated Monongahela Mountains, she learns about love, faith, and of the craft of healing with medicinal herbs. The background of these stories begins in 1905 when West Virginia was wild and woolly, and continues to the later half of the 20th century, when a journalism student, who works at the Springfield Senior Care Facility, is recruited by two gray-haired, knee-high wearing women to inscribe Mollys tales. Stories from the past, and from when the memoir is written in 1990, are intertwined as the most memorable events of a remarkable life, are revealed with a humor and a gentle touch. Mollys Memoir offers a fascinating picture of a strong Native American woman, medicinal healing, historical events, biases, and the significance of family ties even when you aren't blood kin.
