

Hands-On Linux: Featuring Caldera Openlinux Lite, Netscape Navigator Gold, and Netscape Fasttrack Server on Two Cds

Linux, a UNIX RM clone for the PC, is gaining considerable popularity given the increasingly robust versions of Linux being released and the growing support and applications available. This book has been written by a best selling UNIX author, Mark Sobell, who provides a comprehensive guide to Linux for anyone wanting a customizable and easy to configure operating system. Combined with this book is a custom version of the highly rated Caldera, Inc. OpenLinux operating system. Together this book/CD package offers significantly unique advantages to those new to Linux. The book begins with an extensive tutorial on Linux basics and then progresses to in-depth coverage of the details. Part two of the book is a comprehensive reference. The CD contains all you need to get started with Linux and several powerful tools not found in other Linux book/software packages including, the Caldera OpenLinux version of Linux, Calderas Windows and Netscape Navigator for Linux.
