

# New Results in Numerical and Experimental Fluid Mechanics V: Contributions to the 14th STAB/DGLR Symposium Bremen, Germany 2004 (Notes on Numerical Fluid Mechanics and Multidisciplinary Design) (v. 5)

This volume collects contributions to the 14th Symposium of the STAB (German Aerospace Aerodynamics Association). The association involves German scientists and engineers from universities, research establishments and industry who are doing research and project work in numerical and experimental fluid mechanics and aerodynamics, mainly for aerospace but for other applications, too. The volume gives a broad overview of ongoing work in Germany in this field.

series Notes on Numerical Fluid Mechanics and Multidisciplinary Design and also to the staff of the Springer for the opportunity to publish the technical results of the German CFD . Part V: Aerodynamic and Multidisciplinary Optimization of In: STAB, 15th DGLR-Symposium of STAB (November 2006). 23.
