# MCITP Self-Paced Training Kit (Exam 70-646): Windows Server Administration

Announcing an all-new Self-Paced Training Kit designed to help maximize your performance on 70-646, a required exam for the new Microsoft Certified IT Professional (MCITP): Windows Server 2008 Administrator certification. This 2-in-1 kit includes the official Microsoft study guide, plus practice tests on CD to help you assess your skills. It comes packed with the tools and features that exam candidates want most including in-depth, self-paced training based on final exam content; rigorous, objective-by-objective review; exam tips from expert, exam-certified authors; and customizable testing options. It also provides real-world case scenarios to help you build skills and expertise that you can apply to the job.Work at your own pace through the lessons and lab exercises. Focusing on Windows Server 2008 administration, this official study guide covers planning server roles; maintaining server security; planning data storage, network load balancing, and server backups; managing software deployment and versioning; monitoring IPv6, server performance and capacity, and AD replication; scheduling server deployments; and designing a rollback contingency plan.Then assess yourself using 300+ practice and review questions on the CD, featuring multiple, customizable testing options to meet your specific needs. Choose timed or untimed testing mode, generate random tests, or focus on discrete objectives. You get detailed explanations for right and wrong answers including pointers back to the book for further study. You also get an evaluation version of Windows Server 2008 and an exam discount voucher making this kit an exceptional value and a great career investment.Key Book Benefits:Comprehensive exam prep study guideIn-depth coverage of exam objectives and sub-objectives plus instructive case
