

The Cosmic Egg Timer

Astrological psychology was pioneered by the Swiss couple Bruno and Louise Huber. Based on their own researches they combined the best of traditional astrology with modern growth psychology to provide a powerful tool for self understanding and psychological and spiritual growth. This can be used successfully by individuals for themselves and by professional astrological counsellors for their clients. This book provides the first overview of the Huber Method available in any language. It is aimed at those who want to find out more about this practical modern approach to astrology, from absolute beginners to professional astrologers, psychologists and counsellors. Using your own birth chart alongside this book, you will gain insights into the sort of person you are and what makes you tick, with pointers to your potential and what may be holding you back.
